

**Wheel Adapter
for Thrustmaster Wheel Hubs**

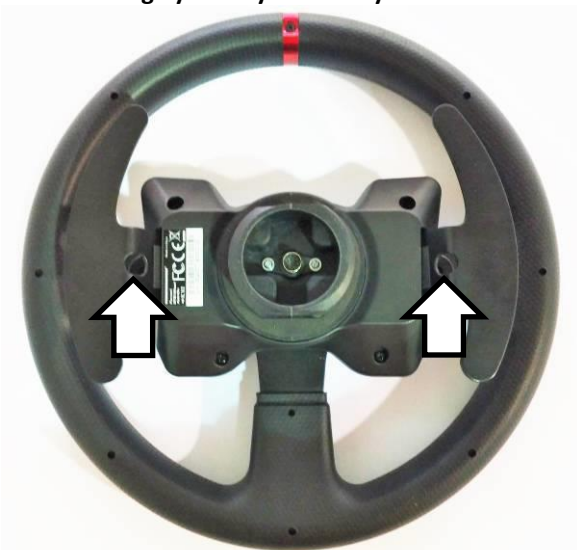

Part Code
TM-WA

Installation Instructions

This guide will take you step by step through the installation of your new wheel adapter to fit on the GTE, TM28 and 599XX EVO add-on wheel rim hubs.

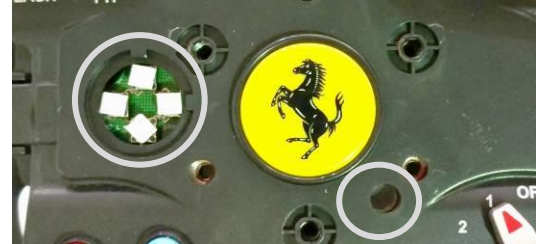

CAUTION: Be careful to avoid static build-up while handling the electronics in your wheel. Ricmotech is not responsible for any damage you may cause to your wheel.

Begin by removing the 2 screws accessible through the openings in the paddles.

Remove the 3 or 6 screws securing the original wheel to the hub.

Carefully reposition the D-Pad and grounding spring if they have become dislodged.

Mount the adapter ring to the wheel hub using the 3 socket head screws provided.

Mount your steering wheel with the screws provided or other suitable M5 screws that do not protrude past the adapter thickness.

Need Help?

If you run into any problems during the installation of the wheel adapter, please contact us directly at technical support at (305) 417-9241 or via email at mail@ricmotech.com.

Due to constant improvements to our products, the product you receive may vary slightly from the product shown in the illustrations.
